The Rahmé Team Delivers ...
Results you Need for the Life You Want

COMPASS

Our Story

We bought and renovated our home in Bay Ridge while expecting our first child so we understand the needs and concerns of a growing family, as well as how to navigate the complex process of making one of the biggest investments towards your family's future. Not only will your next home be where your child takes their first steps, it could also become a potential source of savings for their college tuition. We have over 15 years of experience helping families make sound investments with their future goals in mind.

- Fouad and Grace Rahmé

Client Testimonials

“We bought a loft in a warehouse conversion with room for a recording studio and our baby on the way. Fouad and Grace helped us **negotiate a great price and later helped us sell it for 45% more than what we paid.** We were able to buy our dream home with a nice backyard and build that tree house that we had been promising our 6 year old.”

— MICHAEL (MUSICIAN) AND ATALIE (MARKETING)

"Grace and Fouad helped me find a 2-family house right before it hit the market. I wanted my son to stay in a nice place that wasn't too far from his medical school. It made more sense to buy than to rent and we were able to rent the rooms to other med school students which more than covered the mortgage and expenses. By the time my son graduated med school, the house was worth 50% more than we paid, but the best part is that now he and his wife have a home to start their family."

— AGNES (FINANCE)

"We met Fouad and Grace at a first time home buyer's seminar in a new development they were marketing. They introduced us to a lender who showed us how to purchase with little money down and with a tax abatement our monthly costs were about the same as renting. We each purchased a 1 bedroom next to each other, rented one out, then combined the two units once we had our baby. **They helped us sell for 12.5% above asking and we made a return of 55% more than what we paid 7 years prior.**"

— DAVE (ARCHITECT) AND DONNA (TEACHER)
